

Connect To God's Ministry

This 5-week class is an opportunity to explore how God has created and gifted us to serve in a ministry about which we are passionate. The goal of this class is to help us discover our passion and put it together with a ministry.

Class Overview:

Personality: Using a very basic DISC Personality Profile, discover your primary personality type.

Passion: This is about your will, not your emotions. Discover what motivates you, grabs your attention, and energizes you.

Gifts: Discover the talents and abilities, as well as the spiritual gifts, God has given you.

Opportunities: Find the opportunities that intersect with your passion and gifts.

There will be an opportunity to work with a consultant who will assist you in determining what ministry opportunities might be a good fit for you. Also, make contact with ministry leaders who will help you explore ways to get connected to a specific ministry.
