

# Wanda Burcham

---

Christar

Growing up in OH and WV, Wanda attended Bryan College then Kentucky Baptist School of Nursing to prepare for foreign mission service. She arrived in India with The India Mission in 1953. Learning Telugu, she began work in village evangelism, a medical clinic, and a Telegu elementary school. She later worked in a Leprosy Clinic and with area pastors teaching Sunday School, women's Bible School and at conferences. Retiring in 1992, Wanda actively served those around her in her retirement community, feeding the terminally ill, organizing prayer times, and driving people to appointments for many years. She has now moved into the memory care unit.
