# *Ministry...*

Growing up in Ohio and West Virginia, Wanda followed Christ in her early years. While attending Bryan College she felt called to the foreign mission field, India. She went to Kentucky Baptist School of Nursing to prepare, where she applied to the Candidate School of The India Mission. She arrived in India in 1953. After beginning to learn the Telugu language, she started work in village evangelism, a medical clinic, and a Telugu elementary school. She later worked in a Leprosy Clinic and with area pastors teaching Sunday School, women's Bible School and at conferences. Retiring in 1992, Wanda praises God for these ministries which still continue.

Now Wanda lives in a FL Retirement Community, volunteers in the Nursing facility, feeding and sitting with residents at night when they are terminally ill. She compiles prayer requests for a monthly prayer meeting over Muslims around the world. She often serves friends by driving them to medical appointments and on other outings.
